ABOUT US

We have over 150 years of combined marketing experience
We produce the highest quality county magazine in Lincolnshire
Our unique distribution targets an affluent local audience
Our marketing campaigns work alongside quality editorial content

Welcome to Pride Magazines. Over the course of 35 years, we have become experts in marketing. Our flagship county magazines cover Lincolnshire, Rutland & Stamford.

We use creative photography, engaging written copy and modern page designs to create the highest quality magazines in the area.

Each month our editorial team carefully maintains an important balance between ensuring a blend of reader interest stories and advertising features within the magazine.

12 month advertisers benefit from editorial coverage within the magazine, and with the vast majority of our advertisers continually re-booking, our success is well-proven.

Making sure the content and the design of our publications are excellent remains a matter of 'Pride,' but we also strive to ensure your campaign is commercially successful too.

This ensures the best return on your marketing investment and a working relationship that will continue year after year.

UNIQUE DISTRIBUTION

We deliver our magazines to the wealthiest people in the area - for free
We deliver our magazines to 99.2%* of the top three council tax banded homes
Our beautiful magazines are also sold in newsagents and supermarkets
Our distribution team circulates the magazine to reception areas
Your high-end products and services are presented to an appropriate audience

Traditionally, a magazine can usually only determine its content, then hope to attract readers commensurate with that content. Pride Magazines work differently.

Our magazines have a unique and appropriate circulation to the top three council tax banded houses in the area - predominantly those worth over £300,000.

This means advertisers who provide high end products and services can reach appropriate households: the wealth of our readership deliberately engineered into our distribution.

Pride is available to purchase from retailers including supermarkets and independent newsagents across our respective areas.

This retail distribution means that as well as our core audience of homes which fall into the top three council tax bands, we can also achieve a broader readership.

We also deliver to hotels, hair salons and private hospitals, doctors, dentists etc, and as many other waiting areas as possible to ensure a high readership and awareness of the magazines.
